## TEAR SOUP

By Pat Schwiebert & Chuck DeKlyen  
Illustrated by Taylor Bills

Tear Soup recognizes and reinforces the fact that every member of the family from the youngest to the oldest will grieve in their own way. Taking their own time and in doing so, they will find those things which help them best.

- Affirms the bereaved
- Educates the un-bereaved
- A building block for children

What people are saying about TEAR SOUP:

*"Bought this book for my 8 year old grandson. We read it together and shared different memories of grandma. He came to the conclusion that my pot of tear soup for grandma was a lot bigger than his. He also knows that it's ok to cry and he can call me anytime if he wants to make tear soup together."*

*"I highly recommend the book for ages 3 - 103."*

*"I ordered Tear Soup to use with children who are suffering from grief in my school. It is a wonderful book. The pictures are beautiful! The message should help the children understand that the way they are feeling is okay."*

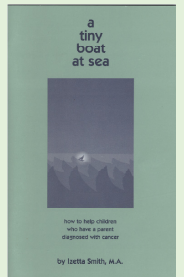

*"After reading this book it did make my 10 year old daughter cry for a long time. However then she was able to talk about my Mother's death like we had not before. It was a great conversation starter and good for the whole family."*
